Our mission

To grow the American tradition of philanthropy by providing programs that make charitable giving accessible, simple, and effective.

Maximize your impact

The Giving Account[®], a donor-advised fund, is one of the easiest and most tax-advantageous ways to give to charity.

A donor-advised fund is like a charitable investment account for the sole purpose of supporting charitable organizations you care about. When you contribute cash, securities or other assets to a donor-advised fund sponsoring public charity like Fidelity Charitable[®], you are generally eligible to claim an immediate tax deduction. Then those funds can be invested for tax-free growth, while allowing you to support charities on your timetable.

How it works

1 Make your tax deductible donation to us

Donate cash, stocks, mutual funds, or non-publicly traded assets and qualify for a tax deduction.

2 Grow your donation, tax-free

While you're deciding which charities to support, your donation can grow based on how you recommend that to be invested, so the Giving Account can potentially have even more money to support charities. You can choose from a number of investment options, from single asset classes to asset allocation pools to sustainable and impact investing pools.

3 Support charities you love, now or over time

You can support eligible IRS-qualified public charities with the money you've contributed to Fidelity Charitable for your Giving Account. You have the flexibility to recommend grants on your own timetable in order to align with your charitable giving goals.

What it costs

The Fidelity Charitable Giving Account has no minimum initial contribution requirement and low annual fees.

No minimum

\$100 or 0.6%¹

0.015% to 0.97%

INITIAL DONATION

You can open a Giving Account with no minimum initial contribution. You don't have to maintain a minimum balance, and you can start supporting charities right away.

ADMINISTRATIVE FEE

This administrative fee is based on your Giving Account balance and covers our costs, like processing transactions and providing donor support. The more in your Giving Account, the lower the percentage.

INVESTMENT FEES

These are the mutual fund fees based on how your donation is invested, just like any other account that has the potential to grow.

ANNUAL FEE EXAMPLE

Giving Account balance	\$600,000
0.60% fee on the first \$500,000	\$3,000
0.30% fee on the next \$100,000	\$300
Total annual administrative fee	\$3,300

CHARITABLE INVESTMENT ADVISOR PROGRAM

For donors who designate an advisor to actively manage their Giving Account, investment fees are set based on the alignment of program guidelines and the advisor's standard fee schedule. This program has a minimum balance requirement that varies by firm. For more information, contact us at 800-262-6039.

The potential for your gift to grow tax-free

When you advise Fidelity Charitable on how you would like your contributions to be invested, your contributions have the potential to grow, possibly providing additional funding for your favorite charities.

Our investment pools offer a variety of choices for your Giving Account, based on your philanthropic goals, preferred types of assets and risk tolerance.

SIMPLIFIED INVESTMENT STRATEGIES

Asset allocation pools offer diversification among multiple asset classes in a single investment pool, with the added benefit of professionally managed target allocation.

CUSTOMIZABLE INVESTMENT STRATEGIES

Single asset class pools (index & active) allow donors to create a customized strategy by combining pools to reach specific objectives.

SUSTAINABLE AND IMPACT INVESTING

Our impact investing pool provides an investment strategy that considers both financial return and social good.

CHARITABLE LEGACY POOL

An “all weather” asset allocation pool, with exposure to both traditional and non-traditional asset classes, for donors seeking consistent support of charities through regular grant recommendations.

Charitable DonorFlex ProgramSM

The Charitable DonorFlex ProgramSM—or DonorFlex—is for donors with more than \$5 million in their Giving Account who desire flexibility beyond what investment pools offer. DonorFlex allows donors to recommend that their Giving Account assets be involved in hedge funds, private equity funds, treasuries and ETFs.

Working with an advisor

If you already have a financial advisor, he or she can help you maximize your donor-advised fund.

You can give your advisor full or partial access to your Giving Account, enabling them to make contributions to Fidelity Charitable and recommend grants to charities on your behalf. With the Charitable Investment Advisor Program, your advisor can actively manage the invested balance, applying their expertise to help drive higher returns from every donation. After all, if your Giving Account balance grows, that’s even more money for the charities you support.

Planning for the future

A Giving Account makes it easy to involve others in your charitable giving. It can also help you make sure your tradition of giving is passed on to family, friends or even favorite charities after your lifetime.

As an Account Holder, you may name one or more successors, either individuals or charities. Individuals may establish a new Giving Account to support charities, which would be funded based on your successor allocation from the balance of your Giving Account. Charities will receive the proceeds in a one-time lump sum grant.

You can also set up ongoing support for up to six charities through our Endowed Giving Program. This lets your Giving Account remain open to contributions from your estate, which can help offset estate taxes while also ensuring support for the causes you care about.
